## The Tortilla Flats Legacy Mural

Prominent artists MB Hanrahan and Moses Mora have embarked on another legacy project to enrich Ventura's cultural experience and commemorate Ventura's unsung founders.

This exciting new public art project will feature the lives of Tortilla Flats residents displaced when the 101 Freeway was built through the west end of Ventura. It is being financed entirely by private sponsors and being painted on the historic 1903 Building on the corner of W. Main and Ventura Ave.

Your name or business name can accompany this beautiful new mural project in a high-visibility location. The building at one time housed a bakery, a barbershop and various markets that serviced the Tortilla Flats neighborhood.

Eleven different images will accompany this colorful project. For a look at each one go to [www.artsventura.org/tortillaflats](http://www.artsventura.org/tortillaflats)

### **Naming opportunities:**

\$1,500 per panel - your information will be prominently displayed next to each panel. Individual donors can go together. Any amount accepted.
